

# GENERAL PLAN AMENDMENT (LAND USE) CHECKLIST

---

Per Development Code section 17.22.070, a General Plan Amendment (GPA) may be granted by the City Council to change the land use designation where sufficient findings can be made to ensure that the change will be beneficial to the City and surrounding area and will be in conformance with adopted General Plan goals, policies and objectives. The City's General Plan Amendment process has been developed pursuant to State Planning Law Section 65358.

## SECTION 1: Filing Requirements

---

- 1. A General Plan Amendment Application through our Online Permit Center at <https://www.cityofrc.us/onlinepermitcenter>.
- 2. Signed Property Owner Declaration Form (attached) uploaded to online application. **NOTE: The form must be signed by the legal property owner, property manager, or other legal representative of the property. Invalid signatures will not be accepted and will delay the intake process.**
- 3. Signed Hazardous Waste Site Statement (attached) uploaded to the online application.
- 4. One site map indicating the subject property, any improvements, current General Plan and Zoning designations, present land use, and special features or landmarks. All other properties within five hundred feet (500') shall be shown and shall include the land uses, Zoning designations, and General Plan designations. Please follow the instructions for PDF Formatting Requirements for EDR Submission (see attached PDF guidelines).
- 5. A written justification outlining the reasons for the amendment request, and why the proposed change would be the best land use planning for the subject area and the City. Upload to the online application.
- 6. One legal description of property/area for which amendment is being requested uploaded to the online application.
- 7. Part I of the Initial Study (environmental assessment) uploaded to the online application.
- 8. Supplemental notification information may be required as determined by the Planning Department upon completion of the review of the Initial Study.
- 9. Filing fees (Section 2) will be assessed after all required documents are uploaded to the online application.

## SECTION 2: Filing Fees

Refer to the Development Fee Schedule for current fee amounts.. Additional fees may apply upon review of the application.

---

- General Plan Amendment ..... See current fee list.

## OWNER DECLARATION

I declare that,  I am the owner,  I legally represent the owner, of real property involved in this application and do hereby consent to the filing of the above information. Further, by signing, I attest that all individuals and entities with financial commitments associated with the proposed development have been clearly identified as required pursuant to SB 1439. Further, by signing I attest that I can provide proof that I legally represent the owner.

# HAZARDOUS WASTE SITE STATEMENT

I have been informed by the City of Rancho Cucamonga of my responsibilities pursuant to California Government Code Section 65962.5 (<http://leginfo.legislature.ca.gov/>) to notify the City as to whether the site for which a development application has been submitted is located within an area which has been designated as the location of a hazardous waste site (attached) by the Office of Planning and Research, State of California (OPR).

I have also been informed by the City of Rancho Cucamonga that, as the date of executing this statement, OPR has not yet compiled and distributed a list of hazardous waste site as required by said Section 65962.5.

I am informed and believe that the proposed site for which a development application has been submitted is not within an area specified in said Section 65962.5 as a hazardous waste site.

I declare under penalty of perjury of the laws of the State of California that the foregoing is true and correct.

# ONLINE PERMIT CENTER ELECTRONIC DOCUMENT REVIEW (EDR) SUBMISSION REQUIREMENTS

## PDF FORMATTING REQUIREMENTS

Portable Document Format (PDF) is the industry standard for electronic plans. The City of Rancho Cucamonga only accepts PDF files for plan review. PDF files must be properly formatted as described below. Please read the following instructions carefully. Improperly formatted plans can delay the plan review process for your project.

- Layers:** No multiple layers. Layers must be merged or flattened.
- Format:** Vector preferred
- Resolution:** 300 pixels per inch (PPI)
- Color Depth:** Monochrome (1-bit)
- File Size:** 1 megabyte (MB) avg. per sheet.  
100 MB total
- Grouping:** Multiple-sheet PDF (single file with multiple sheets)

plans.pdf (multiple sheets)

✓ Correct

See "Formatting Q&A" on page 3 for more information on PDF file formatting and tips on how to create, convert, and merge PDF files. Each sheet of the plans must be sealed and signed by the designer of record. The signature may be applied to the drawing electronically (CCR Title 16, Div. 5, Sec. 411e).

✓ Correct

All sheets must be consolidated into one plan set up to a maximum size of 100 MB. Please consolidate plans to the fewest number of files possible.

Incorrect sheet size, scale, or margins will not be accepted.

Incorrect orientation will not be accepted.

## FORMATTING Q&A:

**Question:** *Why does Rancho Cucamonga only accept PDF plans?*

**Answer:** Rancho Cucamonga is responsible for maintaining records of plans and providing the public with access to them. Files kept in our electronic database must be compatible with a wide range of computer software for storage, viewing, and printing. In addition, the file sizes must be manageable for transfer and for use by the public and City staff.

The PDF standard is constantly evolving, and Rancho Cucamonga will continue to evaluate these standards as necessary.

**Question:** *Are raster-based PDF files acceptable?*

**Answer:** Yes, assuming they meet the size limitation requirement of no more than 100 MB total. Vector-based PDF files are typically much larger than raster-based files. However, the City prefers vector-based files given the ability to scale these files.

**Question:** *How do I combine multiple PDFs into a single file?*

**Answer:** There are numerous PDF tools freely available on the Internet, which can be used to merge, rotate, and rearrange PDF files.

**Question:** *My PDF files are too big. What am I doing wrong?*

**Answer:** Properly formatted and compressed raster PDF files should not exceed 1MB per sheet. If your files are larger, you may have made one of the following errors:

- Saving the plans as 8-bit (grayscale) or 24-bit (full-color) raster files will drastically increase the file size. Even if the images contain only black and white objects, 8-bit and 24-bit files still contain all of the shade and color data. Plans must be saved as 1-bit (monochrome).
- Uncompressed files are much larger than compressed files. Construction plans contain mostly white space. The data required to store this white space can be significantly reduced. When converting your PDFs to raster images, be sure to use a form of lossless compression (such as LZW). When creating or saving PDF files, remember to specify “compressed.”

**Question:** *How do I convert a vector-based PDF to a raster-based PDF if my file size is too large?*

**Answer:** The industry standard software for working with PDF files is Adobe Acrobat; however, there are numerous PDF tools freely available on the Internet.

Step 1: Save the vector-based PDF files as raster images (TIF or PNG). The format of the raster images is important (300 ppi, monochrome). We recommend TIF files with LZW compression.

Step 2: Convert the raster images back to compressed PDF files.

Step 3: Merge the individual PDF files into a single multi-sheet PDF file.

**Question:** *Some raster images are loading slowly in the PDF reader. What am I doing wrong?*

**Answer:** Transparent raster images require considerable resources to display. Even though the source image is not transparent, your CAD software may be plotting it with transparency (white pixels plotted as see-thru). Be sure to set image transparency “off” before plotting.
